

WHERE WILL YOU SPEND YOUR **SUMMER?**

ARE YOU LOOKING...

for an experience this summer which integrates matters of faith into patient care?

DO YOU WANT...

to serve in ways which could make a difference in a medically underserved community, which will strengthen your skills as a future health professional?

WOULD YOU ENJOY...

the opportunity to work alongside Christian clinicians in an environment which promotes Biblical values?

THEN YOU WANT TO BE WITH

LAWNDALE
SUMMER
MEDICAL
PROJECT

What is LSMP?

LSMP is a four week service project whose mission is to empower and inspire the next generation of Christian healthcare providers to care for the medically underserved while embodying the values of the Christian Community Health Fellowship (www.cchf.org).

Who participates?

Aspiring health care providers who have completed their senior year and first year health provider students (MD, DO, PA, NP, CNM).

Where is LSMP located?

The inner city of Chicago, Illinois. More specifically, the neighborhoods of North and South Lawndale on Chicago's West Side.

When does LSMP take place?

Last week of June until the end of July

What is the cost?

\$700

(Need-based scholarships available, please see website for details)

Where can I get more information?

For more information contact:

HEALTH CENTER
Loving God. Loving People.

LAWNDALE
SUMMER
MEDICAL
PROJECT

WHAT DOES LAWNDALE SUMMER MEDICAL PROJECT PROVIDE?

Community Medicine Focus

The LSMP provides those who are aspiring healthcare professionals and first year health care profession students with a vocationally relevant training experience. Our intent is improving the health of patients who do not have access to routine care, and perhaps suffer from chronic health conditions such as hypertension, diabetes and/or asthma.

Cross-Cultural Immersion

The LSMP happens within the uniquely situated and ethnically diverse Lawndale, Garfield and Archer Heights communities, where students live, work and fellowship throughout the duration of the project.

Discipleship and Development

The LSMP is a leadership development and discipleship project designed to provide all participants relevant contextualized training in spiritual growth, evangelism and mentoring.

“This experience will forever change the way I practice medicine.”
- LSMP Participant

Application Deadline:
See website**

WHAT WILL I DO AS PART OF LAWNDALE SUMMER MEDICAL PROJECT?

YOU will initiate neighborhood contact with existing LCHC patients and perform home visits helping to educate and equip patient self management of chronic conditions such as diabetes, hypertension, and/or asthma.

YOU will experience direct patient care, twice weekly shadowing a Lawndale clinician, seeing both adult and pediatric patients in multiple clinic settings while building insight into what it means to be a Christian serving the poor.

YOU will participate in weekly community health fairs, offering various health screenings such as blood sugar and blood pressure checks.

“It was impactful to hear, see, and experience what it means to practice as a Christian physician in an underserved community.”
—LSMP Participant
